The goals or objectives of the project are comprehensible but need further refinement.	The goals or objectives of the project are insinuated but not explicitly stated.
Literature Survey Purpose and need of the project	Outstanding investigation in all aspects. Detailed and extensive explanation of the purpose and need of the project	Well-researched project, good depth and thoroughness, sensible planning of research and well referenced throughout. Collects a great deal of information and good study of the existing systems	Research is clear and structured. Appropriate coverage is present and referenced. Moderate study of the existing systems; collects some basic information	Minimal research or cursory coverage , minimal referencing, Moderate explanation of the purpose and need of the project
Project Scheduling & Distribution of Work among Team members	Detailed and extensive Scheduling with timelines provided for each phase of the project. Work breakdown structure well defined.	Good Scheduling of projects. Work breakdown structure properly defined.	Moderate scheduling of projects. Work breakdown insufficient	Poor / No Project scheduling done. No Work breakdown structure provided.
Text preprocessing	Clearly articulate the need of preprocessing along with proper justification	Clearly articulate the need of preprocessing and unable to explain how they impact the project	State the preprocessing techniques applied and cannot substantiate why they are used.	No preprocessing applied

Part -2 (15%) Dec 4 and 5th

Methodology and Experiments – 5%

Criteria	Excellent (5)	Good (3)	Average (2)	Poor (1-0)
Methodology	Provides accurate, thorough description of how the data was collected, what/how many data sources were analyzed, Methodology/algorithm	Provides mostly accurate and thorough description regarding the data and the data sources. However, the methodology is not clear enough and needs fine-tuning.	Provides basic information about the data collected, the data sources and the methodology/algorithms used. Methodology is unclear and needs improvement.	No description has been provided. Methodology is not relevant/inadequate or poorly described.
Experiments	The execution runs accurately. The expected results and the output match. The goals of the project are met.	Execution runs accurately. Some of the expected results and the output match. Some goals have not been reached.	Execution runs partially. A few goals have been reached. Some of the results and expected output match.	None of the goals have been reached. Inaccurate results.

Research Paper-5%

	(5)	(3)	(2)	(1)
Thesis	clearly stated and appropriately focused; Student created research questions clearly discussed	clearly stated but focus could have been sharper; Student created research questions discussed	thesis phrasing too simple, lacks complexity; or, not clearly worded; Student created research questions not clearly discussed	thesis lacks a clear objective and/or does not “fit” content of essay: Student created research questions not discussed

Supporting Research	thorough and relevant	less thorough but still substantial and relevant	adequate; relevance made clear	insufficient; relevance not always made clear
Focus & Content	sharp, distinct focus; balanced, substantial, specific, and/or illustrative content; mature ideas are particularly well-developed	Clear focus; specific, illustrative, and balanced content	adequate focus, but unbalanced content; more analysis needed	essay contains too much research information without analysis or commentary
Organization	obviously controlled and/or subtle organization strong topic sentences	logical and appropriate organization; clear topic sentences	organization attempted, but unclear or inappropriate topic sentences	inconsistent organization
Mechanics & Usage	free of mechanical and usage errors	few mechanical and usage errors	some mechanical and usage errors, but not severe enough to interfere significantly with writer's purpose	mechanical and usage errors which interfere with writer's purpose
Works Cited Page	6-8 sources sources are accurately documented in a proper format	5-6 all sources are documented in a proper format	3-5 sources are documented	Less than 3 sources are documented; lack proper documentation
